

Provisioning Directly from a Course

To provision directly from a course:

1. Login as an instructor for the course you'd like to provision.
2. Navigate to the desired course.
3. On the course page, click the **Tools** link in the course menu.
4. Under Tools, click the **Panopto Focus Content** link.
5. Click **Configure**.
6. To provision the course, click **Add Course to Panopto**.
7. You will see a message telling you that the course has been successfully provisioned. Click **OK** to finish.
8. You will then be directed to select Panopto folders for your course. Notice that the course you just provisioned is already selected, however, you may add recordings from previous classes to the list if you so desire. Highlight any existing courses you wish to access and then click the **Add** button, then **Submit**.
